FREIGHTLINER 122SD

# VOCATIONAL SEVERE DUTY LOGGING

# FREIGHTLINER 122SD SEVERE DUTY LOGGING

## POWER AND EFFICIENCY FROM FOREST TO ROAD.

The Freightliner 122SD is tough enough for the severe terrain of the logging industry. And when you're headed to the mill, you can count on excellent fuel efficiency. The 122SD offers up to 600 horsepower, torque ratings up to 2050 lb-ft and GCWR up to 210,000 lbs. It also boasts frame ratings in excess of five million RBM, yet it's extremely maneuverable with a wheel cut up to 50 degrees. And the large windshield provides excellent visibility. Although the 122SD is rugged on the outside, the SD cab interior provides comfort for long days in harsh environments. It's well insulated against cold and noise, and grab handles make entry and exit safe and easy. All of which can increase your overall productivity and lower your total cost of ownership. That's what it means to Work Smart.

### STANDARD FEATURES

- 122" BBC durable, non-corrosive, steel-reinforced aluminum SD cab
- Set-back axle tractor @ 43"
- Detroit™ DD15® TC engine with Virtual Technician™ Onboard Diagnostic System, 455 HP, 1550 lb-ft torque
