

# The Electronic Logging Device (ELD) Mandate is Here...

You're on your way toward compliance with Zonar.

## Did you know?

Your Freightliner or Western Star-installed connectivity platform provides secure transmission of vehicle performance data.

Add a Zonar tablet equipped with our ZLogs® Hours of Service application to be ready for the ELD Mandate.

Zonar is here to work with you to make sure your entire fleet—regardless of make and model—is positioned for compliance with all current and upcoming regulations.

### CONNECTIVITY PLATFORM

The same connected platform which supports Detroit Connect Virtual Technician remote diagnostic service is capable of delivering high-definition GPS tracking and real-time reporting of vehicle performance, subsystems and diagnostics information.

### DRIVER PRODUCTIVITY & EFFICIENCY TOOLS

The Zonar mobile tablet offers a suite of driver productivity tools. ZLogs® Hours-of-Service (HOS) which is compliant with state and federal regulations, including AOBRD and ready for the ELD mandate, advanced navigation, messaging, and more. Additionally, Zonar tablets can be equipped with Zonar's patented Electronic Verified Inspection Reporting (EVIR®) system, the only verified, visual inspection system for pre- and post-trip inspections available in the market today.

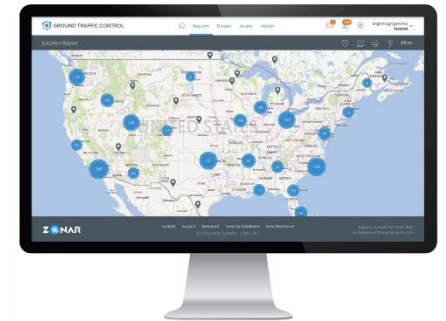

### ZONE INSPECTION

Data-encoded RFID tags are placed in each inspection zone of the vehicle to capture, transmit and record pre- and post-trip inspection data. Improves accuracy, compliance and overall efficiency of inspections.

### GROUND TRAFFIC CONTROL®

Powerful web-based fleet management software provides fleet managers with real-time data and visibility into driver behaviors, maintenance information and a long list of vehicle functions.

# Does FMCSA's ELD Mandate affect me?

**A** ■ Simply put, if you are required to maintain Hours of Service logs now, you will need to comply with new [Electronic Logging Device Mandate](#).

## Overview of FMCSA's ELD Mandate Timeline

## Who is exempt?

- Vehicles using an AOBDR now have until Dec. 16, 2019, to transition to ELD software.
- Drivers who conduct drive-away / tow-away operations, where the vehicle is the product being delivered.
- Drivers of vehicles manufactured before model year 2000 (due to vehicle connectivity; change from the proposed rule).
- Short-Haul Drivers are generally exempt.

## After- Market Orders:

---

Contact your  
channel  
manager.

### Notify your channel manager and Zonar will:

- Present and review Zonar's product offering with your customer.
- Set the customer up with the required hardware.
- Customize the service package that fits the customer's needs.
- Create a Zonar account and complete terms and conditions with the customer.
- Capture the customer's HOS parameter requirements.
- Create the customer's account in Ground Traffic Control®.
- Schedule installation between the customer and dealer.
- Provide system training.
