TRAINING THE NEXT GENERATION OF THE TRUCKING INDUSTRY

The transportation industry is an exciting field that is facing a shortage of skilled service technicians. Central Piedmont Community College (CPCC) in Charlotte, N.C., has increased student enrollment in all of its Transport Systems Technologies programs by partnering with high schools and industry leaders, including Freightliner Trucks.

VOCATIONAL MILESTONES 1958

Freightliner created the first 90-degree tilt cab in the industry, allowing technicians direct access to the vehicle's engine for easy maintenance.

RECAP: IFDA DISTRIBUTION SOLUTIONS CONFERENCE

The International Food Distribution Association (IFDA) Distribution Solutions Conference covers the latest technologies, equipment, and service providers in the industry, along with insights on hot topics such as the Sanitary Food Transportation Act and driver retention.
