# Cascadia Weight Reduction Packages

Quality

### What is it?

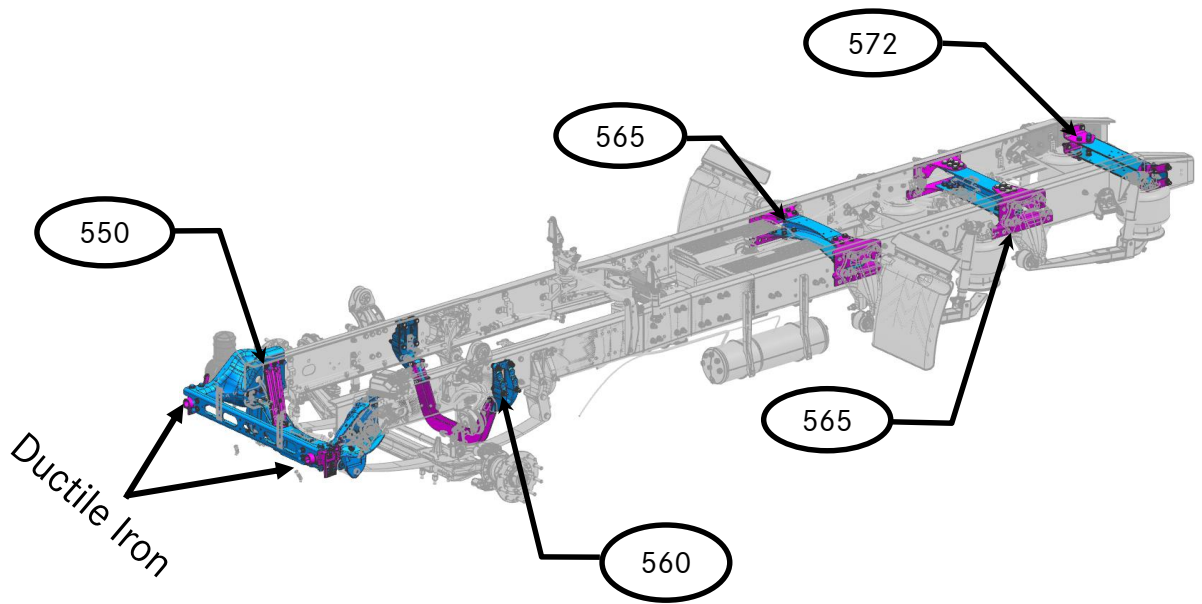

Available now in SpecPro, Lightweight Crossmember packages under data code module 021. This data code module is spec'able for Cascadia models with the 40,000 lbs. Airliner suspension.

### Why is it important?

The Lightweight Crossmember Packages bundle lightweight options to provide maximum weight savings to our customers. The weight advantage means increased payload to customer when additional weight can be transferred to the front axle.

#### Features:

- Weight savings
- Increased front axle payload
