FREIGHTLINER’S M2 112: THE COMPLETE SOLUTION FOR YOUR AUTO HAULING DEMANDS.

Built on the M2 112 platform, the Auto Hauler’s 102” overall cab height and frame height of 33-1/4” allow for a second level of cars within height regulations. With this unmodified roof structure, the M2 112 maintains structural integrity and headroom, making it an ideal production cab with no compromising modifications. The front axle suspension is rated up to 14,600 lbs, allowing for larger cars over the cab and, with fuel tank configurations of up to 160 gallons available, fuel capacity is no longer a problem. And, with our clear back-of-cab chassis, the M2 112 is an easy upfit for equipment manufacturers, allowing greater flexibility.

Maximum payload, driver comfort and easy body upfit all make this the preferred auto hauler for any fleet.

STANDARD FEATURES
• 112” BBC steel reinforced aluminum day cab
• Set-back axle position @ 47”
• Strong, durable cab and hood
• Halogen composite headlights
• Air rear cab mounts
• 63” x 14” rear window
